Instructions

Follow the recommendations

Avoid storing boxes in extreme
heat or cold.

Avoid direct exposure to rain
or overhead irrigation systems.

Protect from direct sunlight
and UV radiation.

Do not place heavy objects on
top of hoverfly boxes.

Leave space between boxes
for hoverfly emergence.

FLYING NATURAL POLLINATION

4

Pollination

Tips during pollination

Birds might try to feed
on the pupae.

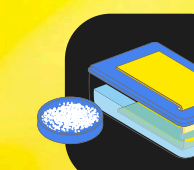

Hang boxes out of
reach of predators.

Sensitivity to pesticides
and other chemicals.

Some hoverflies might get
caught in sticky traps.

Provide water and sugar
after the emergence.
